## Committee News

### 1. Adult Learners' Week

Adult Learners' Week in Australia is part of an international festival of adult learning.

Each year, Adult Learners' Week is celebrated with hundreds of events and activities designed to promote the benefits of learning – in the home, at work and in the community – and to highlight the many options available.

Adult Learners' Week provides an opportunity for informed discussion about the current provision of adult learning in Australia and to consider what improvements are needed to take Australia forward.

Renowned cartoonist Judy Horacek has indicated her September theme will be 'Learning'.

### 2. Scoping a Foundation Skills Professional Standards Framework

Who is a foundation skills specialist? Is there a foundation skills field?

Answers to these questions are being explored through a national project to scope the development of a foundation skills professional standards framework.

The scoping project is underway to generate discussion among those working in foundation skills to define and strengthen the identity of the field, advance the status and standing of the profession and explore options for developing professional standards.

### 3. 2013 International Year of Statistics

*VALBEC has adopted the International Year of Statistics as our theme for 2013. Each month a VALBEC committee member will be digging up some fascinating numbers that you may find interesting and potentially useful in classroom activities. This month it's Linno Rhodes*

I had nominated looking at the football for my month of highlighting interesting statistics, but I'm a bit over the footy at the moment so I've done some research into the not-for-profit area, social inclusion and education - and discovered some very interesting statistical facts:

There are an estimated 600,000 registered NFPs in Australia - 59,000 of these are considered 'economically significant'. The sector employs 890,000 staff or 8.5% of total Australian employment. Not-for-profits also contributed 4.1% to total gross domestic product in the financial 2006-7 year.

In 2011, 75% of people aged 20 -24 have a year 12 certificate but people living in the most disadvantaged areas are 20% less likely to finish year 12 or equivalent.

5 % of Australian adults experience three or more complex disadvantages that can limit their participation in society.

From the report - How Australia is faring: Education pathways and skills-2011

- 64% of Australians aged 25-64 had a non-school qualification, an increase from 46% in 1997. Over the same period, the proportion of people with Bachelor degrees rose from 16%-28%
- 81% of Australians aged 15-24 were fully engaged in education, training or work. Of those not fully engaged, 47% did not complete year 12.

23 November - 1 December is Social Inclusion week ([socialinclusionweek.com.au](http://socialinclusionweek.com.au))

(For a comprehensive look at the most disadvantaged areas in Australia you can download the report 'Dropping off the Edge' ) from The Office for the Not-For-Profit website: [www.acnc.gov.au](http://www.acnc.gov.au)

#### 4. What I'm reading now ...

I like to have a few books on the go – I'm right in the middle of ex- Age journalist James Button's book, 'Speechless - A Year In My Father's Business'. The author is Labor Senator John Button's son who spent a year working as Prime Minister Kevin Rudd's speechwriter. I enjoyed the earlier part of the book where he outlines his years growing up with Senator Button as his Dad and his radical years as a student activist. But as the book continues he finds his time writing speeches that are rarely used by Rudd, and relegated to nights spent on his own in the quietest city in the world –our nation's capital - Canberra. I am learning a lot about the politics of the public service!

I really enjoy writing that has an historical event or period, as the foundation, which is why I am a big fan of Geraldine Brooks – also on my bedside table is her novel 'Caleb's Crossing' about the first Native American to graduate from Harvard. She is an ex-pat and another ex-journalist. She also delivered a great 2011 Boyer lecture series on 'The idea of home' – worth listening to via podcast or similar e-technology.

I like to read young adult fiction and am currently enjoying Fiona Wood's second YA novel, 'Wildlife'. Her first book 'Six Impossible Things' was set in the inner-suburbs of Melbourne I know well, which is always a thrill. And of course I always have the current issue of 'Fine Print' close by for the evenings when I feel the need for inspiration.
